The following announcements for special exhibits were published in Terra Calendar of the Natural History Museum of Los Angeles County:

- | | |
|------------------|---|
| 1968 (December) | 450 million year old fossil: an evolutionary question mark. |
| 1969 (January) | Fossil giant scallops of southern California. |
| 1971 (May) | Glory of the Mesozoic seas. |
| 1971 (June) | Miracle at Sixth and Flower. |
| 1971 (October) | Fossilized spineless freaks. |
| 1971 (September) | California concretions. |
| 1971 (November) | Southern California “forams”. |
| 1972 (February) | The far out colossus of Seppenrade. |
| 1973 (July) | A fossil light show. |
| 1973 (December) | To make a prairie. |
| 1974 (July) | A trio of aged superbeauties. |
| 1974 (July) | Brancusi, netsuke, or animal crackers? |
| 1975 (February) | Bundenbach! |
| 1975 (March) | Which came first, the ship of the shipworm? |
| 1975 (September) | Go fly an ammonite! |
| 1976 (May) | Fossil graveyard rock. |
| 1977 (October) | “Golden” ammonites, “snakestone” ammonites. |
| 1978 (January) | X-ray photographs of fossils. |
